

19 October 2009

LISTING OF LUIRI GOLD LIMITED ON ASX

Further to Lachlan Star Limited's ("Lachlan Star") announcement on 9 June 2009, the Company understands that Luiiri Gold Limited ("Luiiri Gold") has now lodged a prospectus with ASIC to raise \$8 million at 20c by issuing 40 million CHESS Depositary Interests (CDI's) (the Offer).

Lachlan Star holds approximately 30.7% of the issued share capital of Luiiri Gold. The Company has committed to subscribe for a further \$1.8 million of CDI's at 20c, which will result in the Company holding approximately 28% of Luiiri Gold at the completion of the Offer.

Luiiri Gold has two main assets which provide Lachlan Star with exposure to exciting gold and iron ore assets:

- The Luiiri Hill Gold Project includes 656,000 ounces of gold contained in 7.1 million tonnes at 2.9g/t for the Inferred category and 144,000 ounces of gold contained in 2.2 million tonnes at 2.1g/t for the Indicated category.
- At Nambala, an independent review by Coffey Mining indicated that on part of the mineralized body there exists the 'mineral potential' of between 100 and 300 million tonnes of iron at grades of 55-60% Fe. Interpretation of the regional geology indicates that the iron contained in this deposit could be several times larger than this figure.

Additional information on these projects can be found on the Luiiri Gold website.

For and on behalf of the Board

Mick McMullen
Chairman

Competent Persons Statement

The information in this report that relates to Exploration Results, Mineral Resources or Ore Reserves is based on information compiled Mr Michael Sperinck, who is a Member of The Australasian Institute of Mining and Metallurgy.
