

Quarterly Report for the Period ending 30 June 2009

Corporate

At the end of the June quarter Lachlan Star had cash deposits of \$8.5 million.

The Company made two investments in the gold sector during the quarter.

Luir Gold (“Luir”)

Agreement was reached to invest a total of \$3 million in Luiri Gold Limited, a TSX Venture exchange listed company with gold projects in Zambia. The Luiri Hill Gold Project has a total JORC mineral resource of 656,000 ounces in the Inferred category and 144,000 ounces in the Indicated category at an average grade of 2.7 g/t.

Lachlan Star is now the largest shareholder in Luiri with 30.6% of the share capital. The Company will appoint two directors to Luiri’s board and provide technical assistance to progress its gold projects in Zambia.

Luir plans to list on the ASX in the near future which will provide additional liquidity for its shares. The Company is of the view that Luiri is undervalued with an enterprise value of less than \$9/ resource ounce and that significant upside exists in the resource potential of the project.

The investment in Luiri provides a low cost exposure to the gold sector in a stable southern African country with an established mining culture. The Luiri Gold Project is located near to power, road and water infrastructure and has previously been mined.

Exco Resources Limited (“Exco”)

The Company invested a total of \$470,000 in an Exco placement at a price of 23.5c/share. Exco is an ASX listed resource company with advanced copper and gold projects in Queensland and South Australia respectively.

At White Dam, Exco has entered a 75:25 joint venture with Polymetals Group Pty Ltd, who will manage the implementation and operation of the project. White Dam contains a resource inventory of 330,400 ounces of gold, and the project has now been granted final approvals. The project remains on track for first gold production by early 2010.

In north-west Queensland Exco holds a large (>4,100km²), strategically located and highly prospective land package. Resources delineated for the project to date total 51Mt, containing 425,000 tonnes of copper and 373,000 ounces of gold.

Projects

Bushranger Copper Project

Limited field work was carried out on the Bushranger Copper Project during the quarter. The renewal application for ML5574 was lodged in April 2009.

Alexander Coal Project

In July 2008 the Company announced that it had entered into an agreement with Universal Pulse Trading 132 (Pty) Ltd to purchase up to 74% of the Alexander Coal Project in South Africa.

Subsequent to that announcement the Company was notified that there were inconsistencies with the tenure of the New Order Prospecting Rights held by Universal Pulse. The Alexander Coal Project consists of two Prospecting Rights, MP 30/5/1/1/2/1523 (PR) and MP 30/5/1/1/2/1626 (PR).

The Company has halted work on the Alexander Project until such time as the tenure situation can be clarified. Subsequent to the end of the quarter, the Company was notified that the vendor and the other claimant for the Alexander Project were applying to the courts to resolve the matter.

More information about the Company can be found at our website www.lachlanstar.com.au.

Notes

- 1 The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity wanting to disclose additional information is encouraged to do so, in a note or notes attached to this report.
- 2 The "Nature of interest" (items 6.1 and 6.2) includes options in respect of interests in mining tenements acquired, exercised or lapsed during the reporting period. If the entity is involved in a joint venture agreement and there are conditions precedent which will change its percentage interest in a mining tenement, it should disclose the change of percentage interest and conditions precedent in the list required for items 6.1 and 6.2.
- 3 **Issued and quoted securities** The issue price and amount paid up is not required in items 7.1 and 7.3 for fully paid securities.
- 4 The definitions in, and provisions of, *AASB 1022: Accounting for Extractive Industries* and *AASB 1026: Statement of Cash Flows* apply to this report.
- 5 **Accounting Standards** ASX will accept, for example, the use of International Accounting Standards for foreign entities. If the standards used do not address a topic, the Australian standard on that topic (if any) must be complied with.
